Benin City, Nigeria

SUMMARY

Full-stack software engineer building and deploying web applications with Next.js, TypeScript, and MongoDB, with experience in real-time systems and AI-assisted search.

EXPERIENCE

Full Stack Engineer

10/2025 - Present

SBP HOTEL BENIN

- Built and deployed sbphotel.com with room categories, rates, amenities, and an availability search.
- Developed responsive service, local-attraction, FAQ, and contact pages that guide guests toward booking enquiries.

Program Analyst Intern

04/2025 - 09/2025

Edo State Hospital Management Agency

- Analyzed hospital information in Excel to support reporting and organizational planning.
- Contributed to the redesign of the agency website and trained staff to build basic websites with HTML.
- Supported organizational planning through SWOT analysis and key performance indicators (KPIs).

PROJECTS

SwiftDU

swiftdu.org

- Built a full-stack campus errand platform for food, printing, shopping, and deliveries using Next.js, TypeScript, and MongoDB.
- Developed customer, tasker, and admin workflows for placing orders, assigning tasks, verifying taskers, and managing operations.
- Implemented real-time order tracking, payment flows, and notifications across the delivery lifecycle.
- Reached 150 student users and 31 taskers, processing over ₦1 million in order value in the first month.

Success Chemist

chemist-software.vercel.app

- Developed an AI-assisted tool that helps pharmacy staff find medicines and understand their functions.
- Implemented vector embeddings and semantic search to match staff queries with relevant drug information beyond exact keywords.

MACSI - Make A Child Smile Initiative

macsi.vercel.app

- Built a responsive website for an NGO providing educational materials to underprivileged students in Nigeria.
- Created program pages and a visible donation route to help supporters learn about and contribute to the initiative.

EDUCATION

Computer Science

2022 - 2026

Western Delta University - Bachelor of Science

SKILLS

Languages

TypeScript, JavaScript

Frontend

Next.js, React, Tailwind CSS, shadcn/ui

Backend & Data

Node.js, REST APIs, Socket.IO, MongoDB, Mongoose

Tools & Integrations

Git, GitHub, Vercel, Paystack
